DETAILED ACTION

Allowable Subject Matter

1. Claims 34-37, 40-44, and 74-80 are allowed.

The following is an examiner's statement of reasons for allowance: the references cited disclose a transducer assembly comprising a housing having an opening, an electro-magnetic component, a first projection, and some other claimed elements. However, they do not disclose or render obvious in combination of the assembly having the electro-magnetic component enclosed within a container, the first projection being provided at a surface thereof, and wherein the container comprises a material wherein the electro-magnetic component is at least partly cast-in (claim 34), the first projection is displaceable relative to the electro-magnetic component, and wherein the component and the first projection are adapted to be snap-fitted into the housing, the snap-fitting being performed by the displaceable first projection and the opening of the housing in combination (claim 74).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
